

BITE PERSONAL STORAGE

PRODUCT DESCRIPTION

Bite® is a mobile storage unit that wraps around bench desking and workstations, providing not only capacious multi-functional storage, but creating a sense of personal space within the open plan working environment.

A multitude of features include an upper cantilevered secure compartment, a letter box for receiving mail and a lid which opens up to create a mini-screen that can be specified with a bulletin board or whiteboard.

The upper and lower elements bridge the work surface, providing space-efficient and ergonomically-sound storage immediately to hand.

FEATURES

- Postal slot and business card holder
- Reversible soft closing lid
- Bulletin board or whiteboard
- Castors (front items locking)
