# THE POWER OF STEEL

## CSM LOCKERS COLLECTION

Renowned for structural integrity, purposeful design and our company's commitment to a sustainable environment CSM designs superior products that co-exist for a better world.

At CSM, we understand the power of steel – the most-recycled material on earth. More steel is recycled every year than paper, glass, aluminium and plastic combined, meaning steel has the ability to leave a positive and long-lasting environmental impact. Our product stewardship commitment to zero-waste and non-toxic chemical use means that all CSM products are designed to be 100 per cent recycled. Everyday, we see the power of harnessing steel's recyclable potential to make real change. It gives us the backing to integrate each arm of our business to close the loop on waste.

Our locker and unique storage solutions are manufactured to your specifications in our Australian factory. With a diverse range of Australian-made lockers and storage solutions, there are no material or shipping delays.

For over 30 years we have been providing lockers and storage solutions for a diverse range of government departments, education and workplace environments.

# CUSTOMISED SOLUTIONS

## CSM LOCKERS COLLECTION

If the last couple of years has confirmed one thing — the contemporary workplace is a constant change. Never has it been more important to remain flexible, adaptable and agile.

When you're managing flexible working arrangements, more traditional formats or even cutting-edge modular and non-assigned office layouts, teams require an equally versatile storage solution. CSM Lockers are highly customisable and an ideal choice for an architectural locker storage solution. CSM Lockers are constructed from high-strength 1mm steel and engineered for durable performance. Bespoke solutions are available providing a tailored approach to suit any space.

Our modular systems accommodate any solution including;

- Personal and individual storage for bags, clothing, etc.
- Secure electronic storage with charging bays
- ABW-optimised file storage for safe storage of paperwork, categorised media types and other collateral)
- Frequent-use or long-term/overnight storage.

With a diverse range of Australian-made lockers and storage solutions, our locker and unique storage solutions are manufactured to your specifications locally in our Australian factory.

# SUSTAINABILITY

MADE TO LAST A LIFETIME

At CSM, we understand the power of steel – the most-recycled material on earth. More steel is recycled every year than paper, glass, aluminium and plastic combined, meaning steel has the ability to leave a positive and long-lasting environmental impact. Our product stewardship commitment to zero-waste and non-toxic chemical use means that all CSM products are designed to be 100 per cent recycled. Everyday, we see the power of harnessing steel's recyclable potential to make real change. It gives us the backing to integrate each arm of our business to close the loop on waste.

The sustainable management of all on-site production, freighting and installation processes underpin CSM's successful performance in frequent environmental audits.

As part of CSM's corporate social responsibility commitments, we champion local talent, working with Indigenous artists and community workshops. CSM and its suppliers proudly employ the following standards with integrity across arms of business:

- Recycle materials on site
- Employ energy saving lighting
- Water is not used in production processes and any waste water is recycled
- Operating under a zero-emission policy
- Exclude all harmful chemicals from the production process
- Remove all packaging from site for recycling

Most importantly our commitment to high quality materials ensures our products are robust and made to last a lifetime.

CSM's lead-by-example approach has been awarded with GECA's Good Environmental Choice Label and Ecospecifier endorsement for the supply of eco-preferable products in Australia, Asia-Pacific and the Middle East. CSM products carry accreditation under the ISO 14000 series.

CSM is also a member of the Green Building Council of Australia – part of the World Green Building Council – and has proudly participated in Australia's highest green star rated commercial fit-outs, supplying green rated storage systems.

# MODULAR

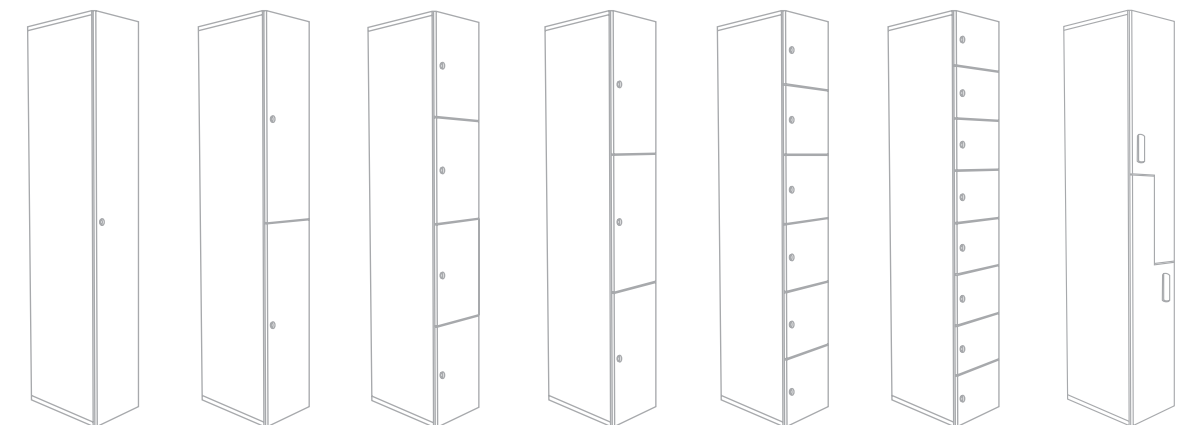

## CUSTOMISABLE LOCKERS

CSM Modular Lockers can be customised with a choice of colours and finishes, vinyl artwork, optional perforations, laminate or veneered doors and various locking systems. Components can be reused and reconfigured to create different layouts whilst steel construction brings strength, durability, and design flexibility to provide a locker system to meet scalable requirements as needs change with time.

Empower your team to transition seamlessly between working arrangements – from traditional formats, task-specific work and active or agile settings – with this versatile and modular solution.

CSM Office Locker body is constructed from high-strength 1mm steel and engineered for durable performance. Door and surrounds can be specified in either powder coated steel or joinery. See CSM website for colour palette finishes. Bespoke solutions are available for clients wanting a tailored and refined workplace environment. Guaranteed to perform, CSM Office Lockers are designed and manufactured in Australia by CSM.

Customisable Locker Modules

# MODULAR LOCKERS WITH PLANTERS

## CUSTOMISABLE LOCKERS

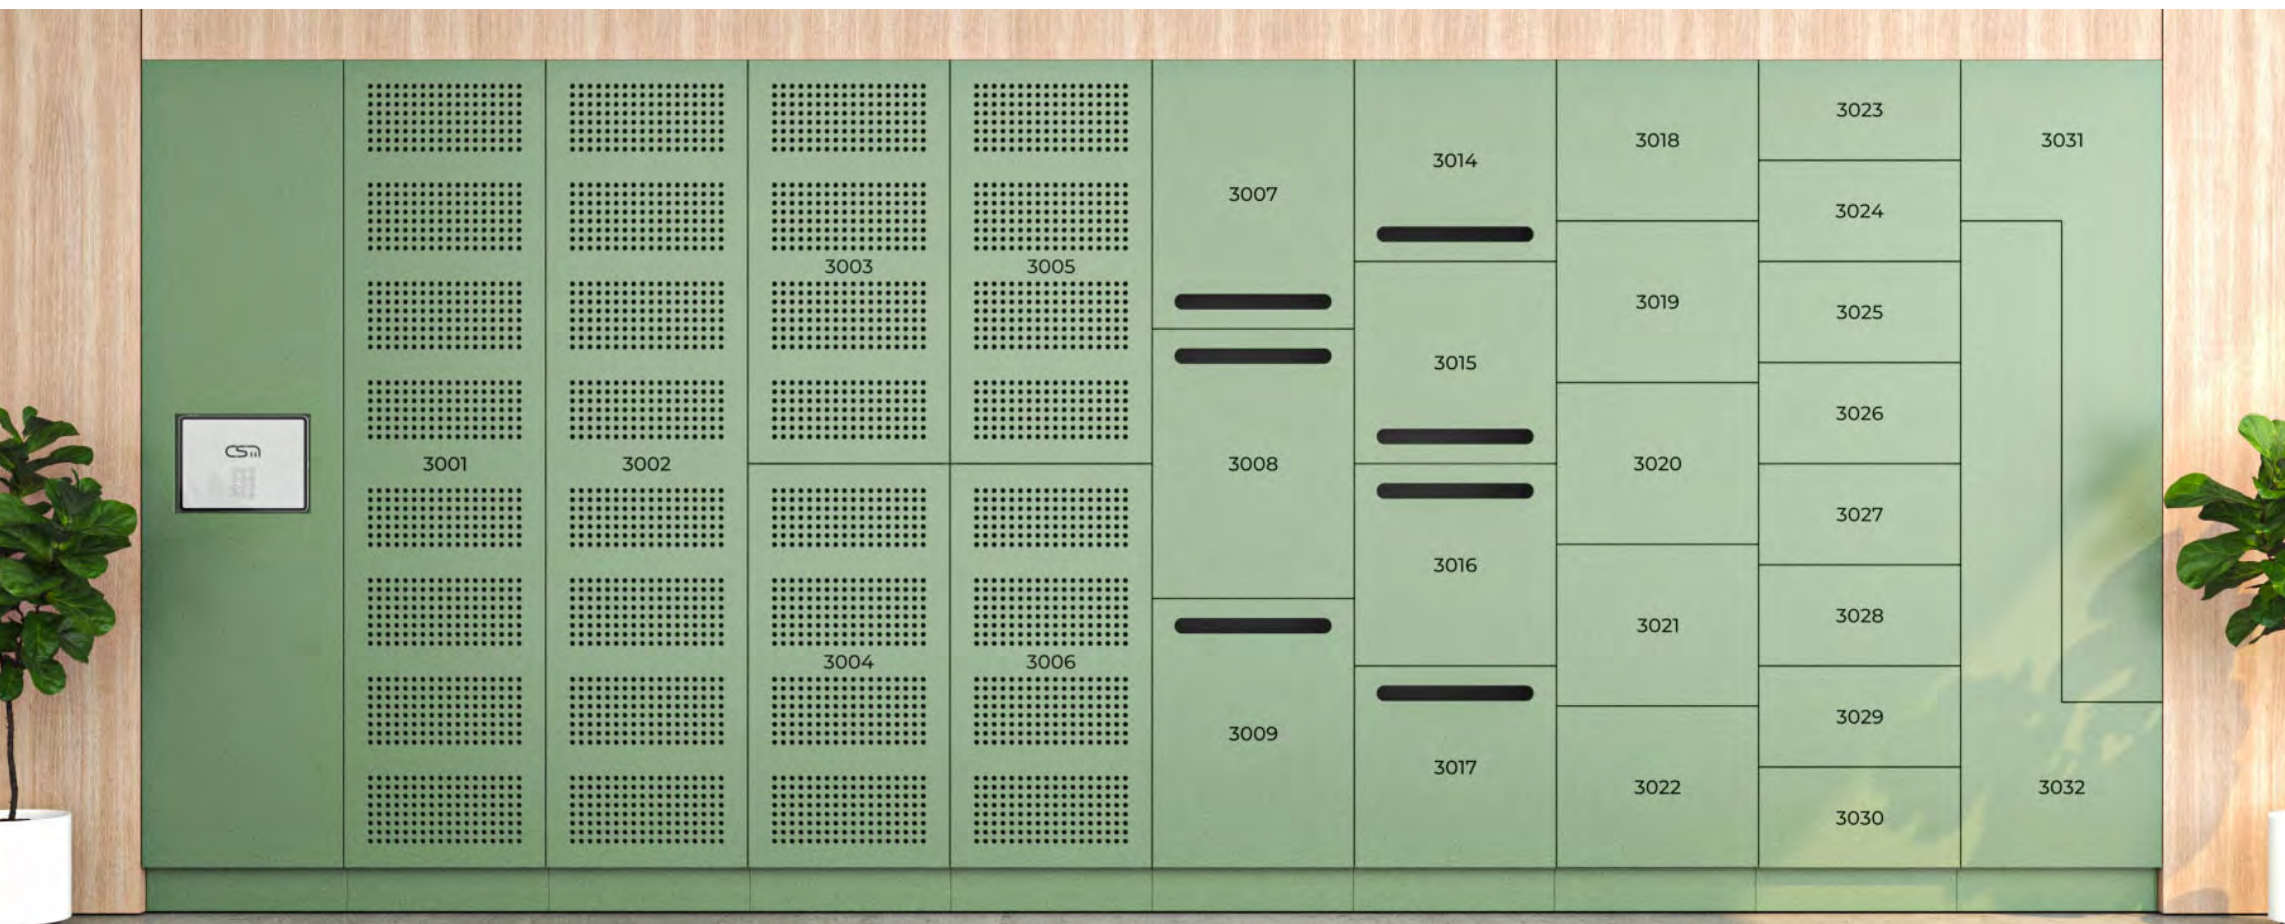

Adding biophilic elements to workplaces enhances productivity, overall team health, satisfaction and retention. Plants can also reduce noise and create extra privacy for workplace neighbourhoods. CSM Lockers combine easily with planter boxes to promote a well-being focused environment.

Whether via natural light, fresh air or exposure to greenery, biophilia in the working environment has demonstrated positive benefits for productivity, talent attraction and retention and overall team health and satisfaction. Resulting in fewer sick days, bringing lush plant life to the office invigorates working environments and employees alike. Incorporating multi-use furniture such as CSM Planters with CSM Office Lockers serves to optimise the total footprint – maximise space and creating a healthier and more productive environment.

## FLEXIBLE SOLUTIONS

MODULAR & RECONFIGURABLE

Today's flexible spaces require customisable storage solutions. CSM's fully customisable locker modules allow you to create a streamlined solution for any storage requirement.

CSM lockers are available in 6 essential modules; 1 door, 2 doors, 3 doors, 4 doors, 5 door, 8 doors and L-shaped doors.

The modular design allows you to configure the lockers to suit any setting. Add or remove lockers over time in line with changing needs, without the need for a total redesign or replacement, new locks or electrical components.

Creating customisable and reconfigurable Lockers interior is easy. Choose from a wide range of accessories including:

- Fixed Shelves
- Adjustable Shelves
- Ironing Units
- Hanging coat rails
- Carry Trays
- Charging Stations
- Bag Store
- Utility Drawers
- Sporting Equipment Store
- Musical Instrument Store

# FLEXIBLE SOLUTIONS

UTILITY DRAWER, OPEN BAG COMPARTMENT,  
COAT CUPBOARDS, BENCH SEATING

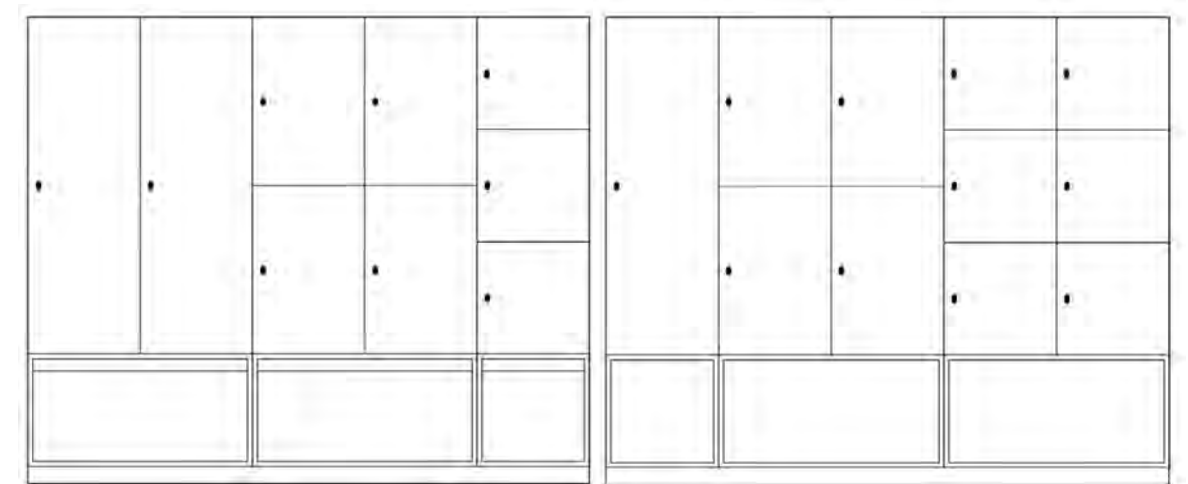

From inbuilt seating options to large scale items and musical equipment, CSM's lockers and storage systems are high-quality, durable, easy to install and available in a huge range of door colour and finishes along with a range of perforated design options.

Help teams navigate the rapid pace of the working day with a Low Utility Drawer. A safe, simple and streamlined solution to storing large items, luggage, shoes, umbrellas, gym bags, motorcycle helmets and riding gear, CSM Low Utility Drawers give employees peace of mind by securely storing all larger scale personal items and shared workplace equipment.

Compatible with CSM Office Lockers in 1 door, 2 door and 3 door locker units, the CSM Low Utility Drawer carries a 380mm drawer base.

CSM also offer easy-access, no-drama solutions with a combined Locker and Open Bag Compartment. The simple answer to the majority of personal item storage needs. Offering a large, unobstructed storage space for personal items – such as bicycle and motorcycle helmets, larger luggage, gym bags and cumbersome task-specific equipment – CSM Open Bag Compartments are popular solutions for employee storage and end-of-trip facility banks in addition to shared work equipment storage areas. Fully customisable, CSM's Industrial Design Department can create bespoke design solutions for any team storage requirement.

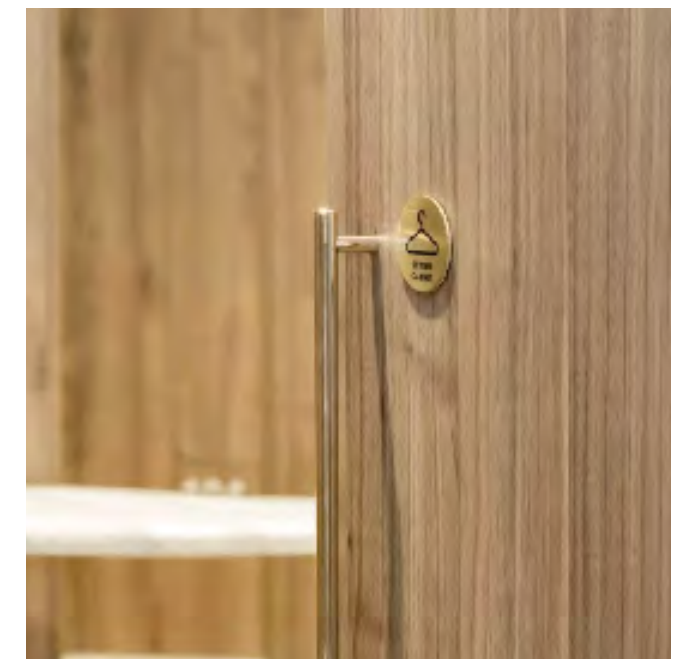

# FINISHES

## COLOURS, FINISHES & IDENTIFICATION

CSM's modular lockers are available in a range of highly durable, chip resistant finishes. All Lockers can be customised with a choice of colours and finishes, optional perforations. Steel construction brings strength, durability, and design flexibility to provide a scalable future-proof locker system to meet evolving requirements.

Locker doors can be fitted with acoustic-rated sound absorbing material to minimise noise. Select from a huge range of door livery including customised Alpha/Numeric labelling and Aluminium locker identification plates.

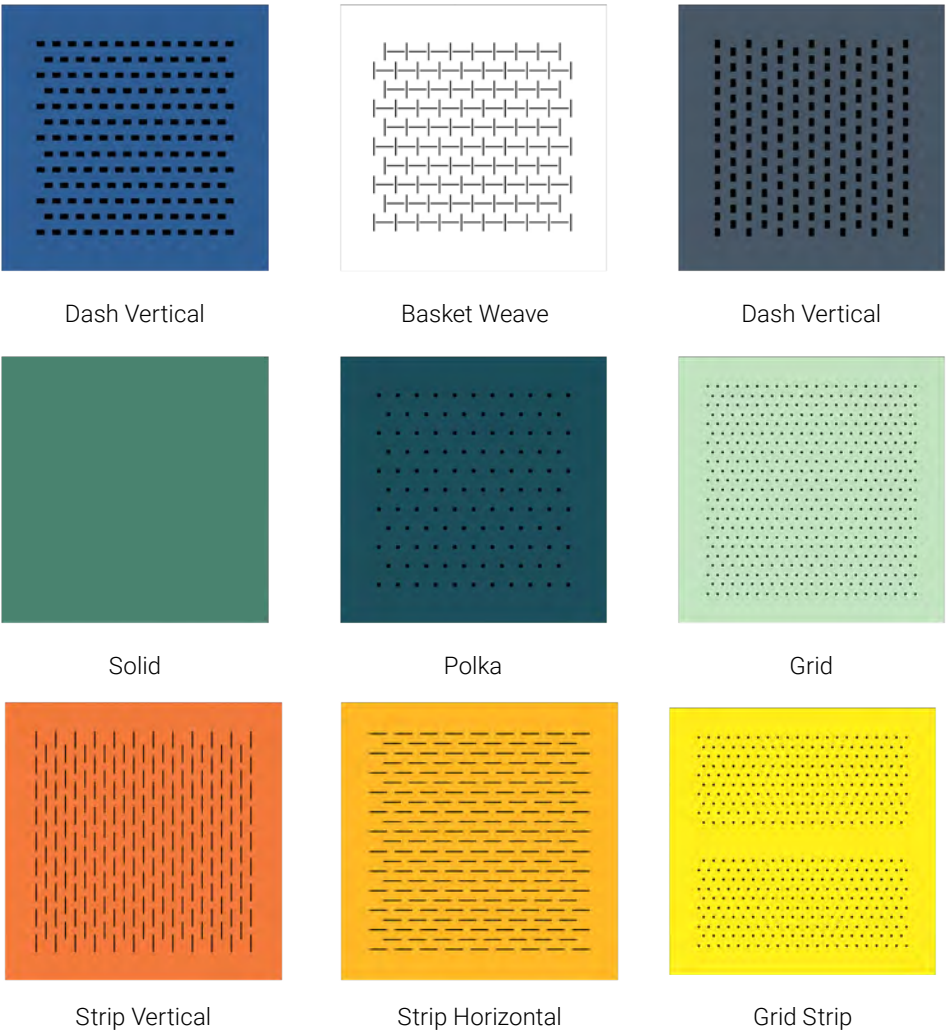

# FINISHES

COLOURS, FINISHES & PERFORATIONS

Coorong by Helena Geiger — Indicative image only.

Choose from hundreds of powdercoat colours or from a selection of perforated shapes and panels including our latest collection designed by First Nations Artist Helena Geiger.

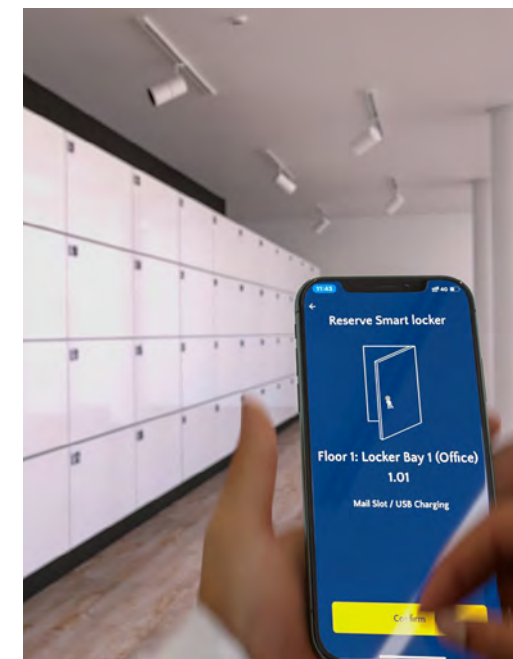

# LOCKS

KEY, PAD & SMART LOCKING

From Key Lock, Padlock, Mechanical Combination Lock, Digital Combination Locks, Digital Swipe Card Lock and DiscoverLock Smart App our extensive locking offering answers any and all security needs.

CSM offer state-of-the-art, end-to-end customisable solutions that enables the complete management and control of secure Locker enclosures in accordance with defined workflow and operational practices.

## CREATIVE BOARDS

### MAXIMISE YOUR FOOTPRINT

The simplest things are often the most essential. All CSM Lockers come with a Creative Board option.

Whiteboards, acoustic panels, chalk, pin or magnetic boards. Share concepts, maximise space — the possibilities for creativity and collaboration are endless.

CSM creative boards add another dimension to collaboration by providing a writeable, pinnable, flexible space.

# LOCKERS SELECTION PROCESS

## CUSTOMISE YOUR WAY

How many modules do you need to fit the over bank size you require? For example if your wall size is 2m long, you could select 5 Modules x 400mm or customise to suit the user requirements. The below forms as a guide to help your selction proccess. We understand that every project is unique and product variations are available based on quantities. **Need assistance with various dimensions or require something more customised? We offer a full range of bespoke solutions, our team is here to help - reach out to our sales team for more information and customised pricing.**

- ☐ Coat Cupboard
- ☐ Coat Cupboard
- ☐ Mail Slot

\*L Door finish, joinery only.

# OUR STORY

## ABOUT CSM

65 years of experience means that CSM is a brand that Australia trusts. We take pride in our long term relationships and work with the country's leading corporate and professional services, government bodies, education providers and cultural organisations – designing products to support innovative Australians and delivering storage solutions engineered to perform today and well into the future.

We started as a design focused business in the 1950s, and we continue to honour the ethos with a commitment to Australia's manufacturing sector – becoming a leading manufacturer of corporate, institutional, campus and conservation storage solutions. We pioneered computer controlled machinery in the 70s and remain at the forefront of Australia's fully automated fabrication facilities.

As a proudly Australian-made, owned and operated company, CSM recognises the value of concentrating operations at a local level.

Recognised for our work in steel, we have become Australia's go-to leading specialists in workplace storage design, engineering and manufacturing solutions tailored to specific design outcomes and budgets, delivered nationally under competitive lead times.

By keeping our design, engineering and manufacture capabilities under one roof, CSM's vertically integrated business model allows for:

- Reduced lead times
- Rapid prototyping capacity
- Exhaustive custom offering
- New product development built to client specification

“Over the past 65 years, we’ve built trust with government and corporate clients along with a demonstrated ability to deliver large scale projects within the property industry. We are contract suppliers for the government with 25+ years of successful delivery for the education and public sectors.

Renowned for our work with high quality steel, we are proud to be Australia's specialised Architectural Storage Solutions provider utilising the power of steel – the most-recycled material on earth and leaving a positive and long lasting environmental impact.

Our success has been underpinned by our commitment to continuous improvement through innovation and technology.”

– Mark Durrington & Peter Letton, Co Managing Directors
