## LITE TRACK ROLLING STORAGE – MANUAL

---

### Features

- Australian designed, engineered and manufactured
- Units are fully modular and can be easily relocated and extended
- Wide range of Standard sizes – Custom sizes available for individual applications
- Designed for single and multiple bay applications up to 2400mm wide
- Side to side can be added to existing shelving to extend capacity
- Ideal for Computer Access Floors
- Tracks sit on floor - No cutting into carpet or floor required
- Integrated Anti-Tilt with fail safe aluminium (not PVC) safety mechanism
- Rolled post construction for strength and not restricted access
- Back panels cover conceal exposed fittings for streamline office aesthetics
- Distributes loads evenly
- Low profile aluminium tracks eliminate trip hazards
- Interlocking packers used for levelling tracks
- Barrel Exchange Master Key System
- Additional locks and CSM storage Pods may be incorporated to provide individual security requirements
- Decorative end dress panels cover the entry side to provide an aesthetically pleasing and contemporary feel.  
A decorative end cover panel to the wall side is optional and normally specified where aisle access is required from both sides
- Standard Decorative end panels are made of powder coated steel in a choice over 200 colours
- Panels may be ordered in the client's choice of perforations, vinyl, laminate or have a mirror finish

### Accessories (available separately)

- Adjustable Slotted Shelf Dividers
- Additional Shelves
- Coat Compartments
- Roll Out Suspension File Frames
- Pull Out Multi Media Drawers
- Roll Out Reference Shelf
- Paper Management Units
- CSM Storage Pods with Tambour Doors
- A4 or A5 Card Holders
