## WORK AISLES

ZONE, DIVIDE AND CONNECT WITH FRAMES

Introducing the perfect complement to the Work Aisles collection—Frame. Easily added to the single or double Work Aisles cabinets, Frame is perfect for seamless side-by-side banking and space management.

Work Aisle modules allow you to mix lockers, hinged door cabinets, bookcases, touch-free rubbish and recycling cabinets in a variety of sequences to meet the storage needs of each work zone. Safely store personal items in close proximity, integrate recycling units for touch less rubbish disposal or turn storage space dividers into planters for a safely distanced, biophilic workspace. Select your Work Aisles, add doors and locks to create a personalised solution, increase the height and width with Frame for more privacy in a space. Add your frame, mix your frame, adapt your frame –to suit your individual requirement.

These Australian design freestanding cabinets are engineered for reconfiguration. Simply add a range of accessories to your frame including book case shelving and planters to suit your individual requirements.

Work Aisles are manufactured in Australia, which means greater flexibility, shorter lead times and sustainability.

Work Aisles Frame double shelving on Work Aisle Duo lockers.

Work Aisles Frame double shelving + planter on Work Aisle Duo lockers.

Work Aisles Frame triple shelving + planter on Work Aisle Duo cabinets.

CSM's Work Aisles provide an agile, multipurpose storage solution for modern work, learning and social spaces. Offering a fusion of storage solutions in a variety of combinations Work Aisles is highly adaptable with a contemporary approach, the new Work Aisles Frame collection is a user-friendly storage system that addresses the needs of all spaces.

Open, closed, locked, or touch free – you can easily adapt the Work Aisle modules to mix lockers, hinged door cabinets, bookcases, touch-free rubbish and recycling cabinets in a variety of sequence to meet the storage needs of each work zone.

Providing function and form, the units create aisles within a space, offering separation and privacy for each neighbourhood.

Combine your Work Aisles with Frame to deliver endless grid and modular structures for your space.

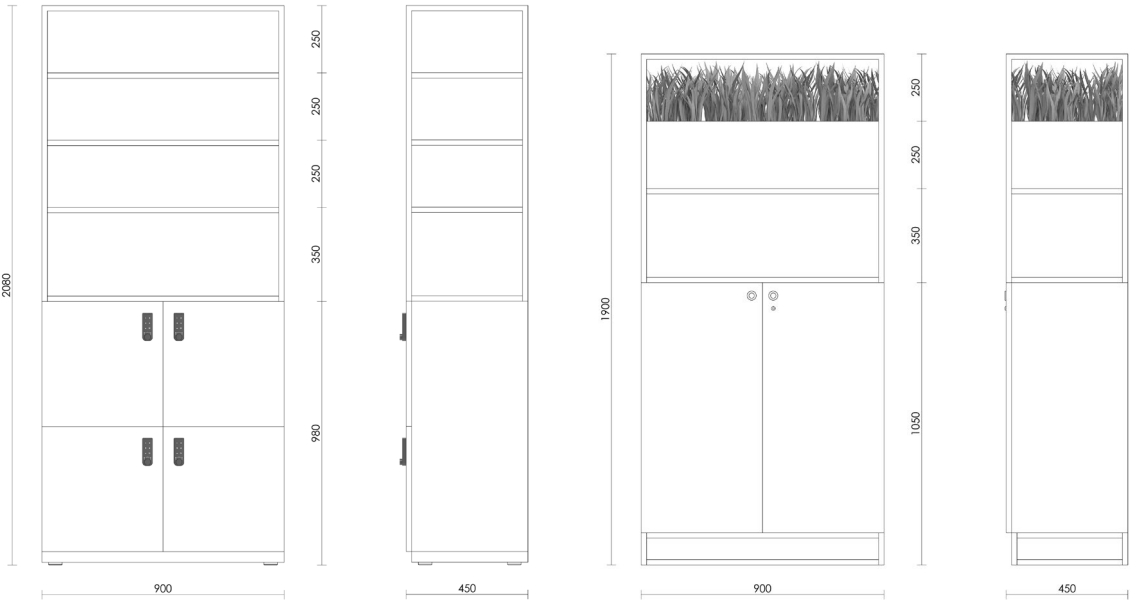

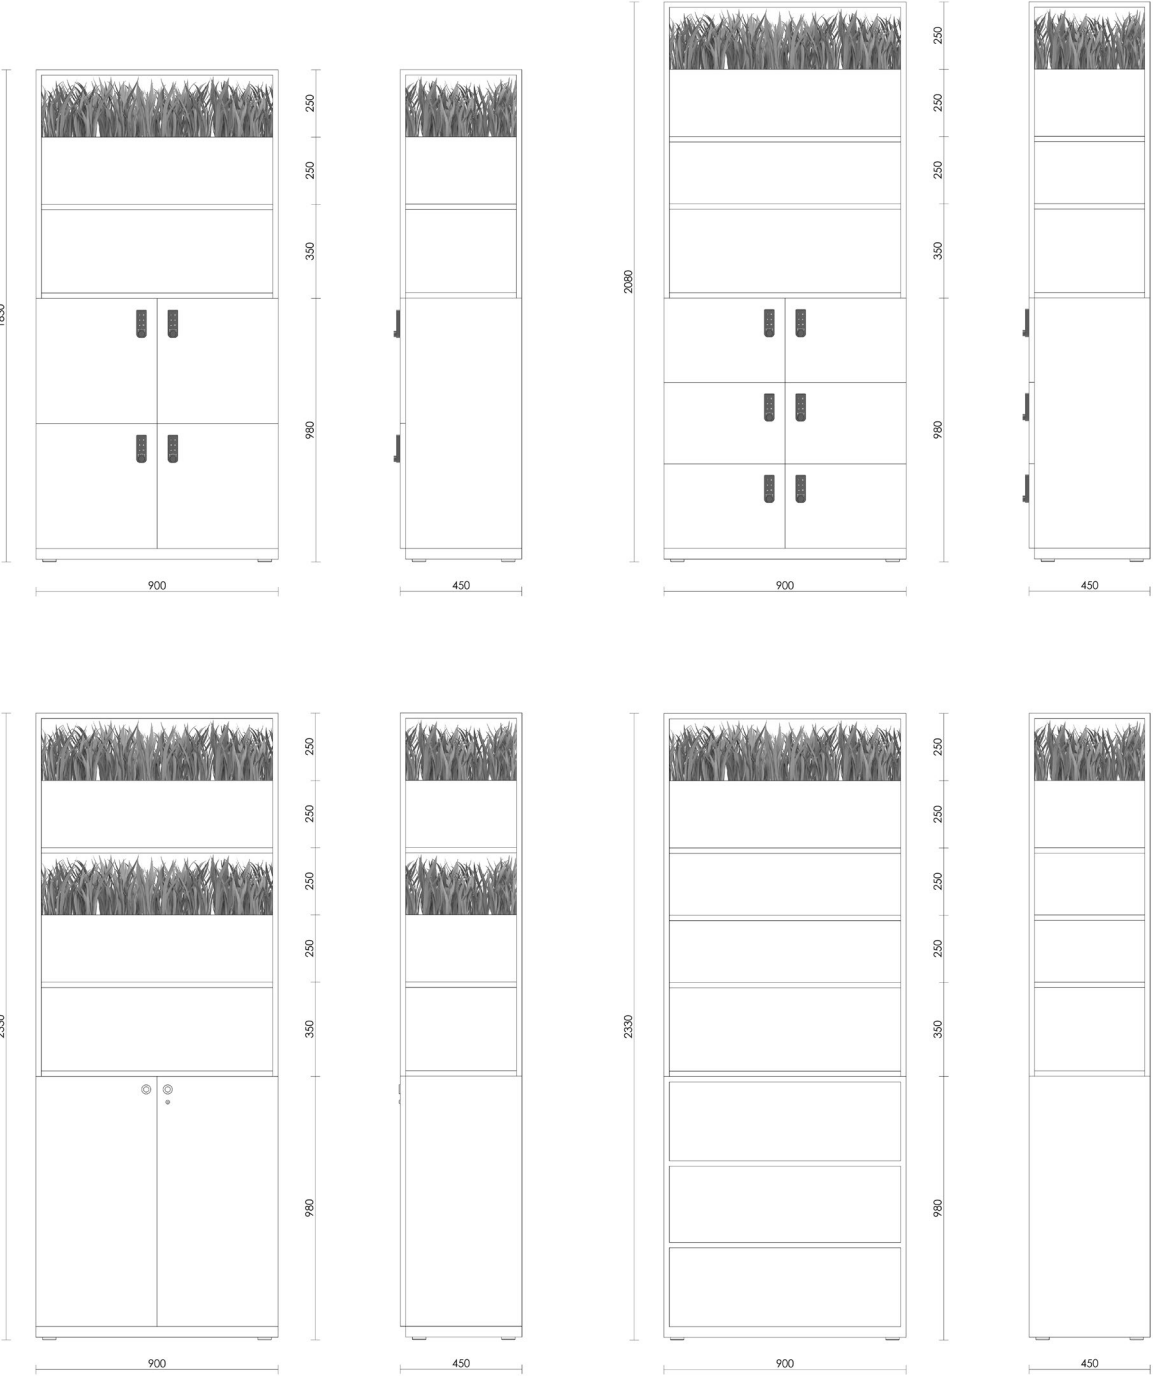

## PLEASE NOTE

Images are indicative only. Dimensions in mm and nominal sizes, please check with the CSM team for finished size dimensions. All units over 2000mm should be fixed to the floor.

# OUR STORY

## ABOUT CSM

65 years of experience means that CSM is a brand that Australia trusts. We take pride in our long term relationships and work with the country's leading corporate and professional services, government bodies, education providers and cultural organisations – designing products to support innovative Australians and delivering storage solutions engineered to perform today and well into the future.

We started as a design focused business in the 1950s, and we continue to honour the ethos with a commitment to Australia's manufacturing sector – becoming a leading manufacturer of corporate, institutional, campus and conservation storage solutions. We pioneered computer controlled machinery in the 70s and remain at the forefront of Australia's fully automated fabrication facilities.

As a proudly Australian-made, owned and operated company, CSM recognises the value of concentrating operations at a local level.

Recognised for our work in steel, we have become Australia's go-to leading specialists in workplace storage design, engineering and manufacturing solutions tailored to specific design outcomes and budgets, delivered nationally under competitive lead times.

By keeping our design, engineering and manufacture capabilities under one roof, CSM's vertically integrated business model allows for:

- Reduced lead times
- Rapid prototyping capacity
- Exhaustive custom offering
- New product development built to client specification

“Over the past 65 years, we’ve built trust with government and corporate clients along with a demonstrated ability to deliver large scale projects within the property industry. We are contract suppliers for the government with 25+ years of successful delivery for the education and public sectors.

Renowned for our work with high quality steel, we are proud to be Australia's specialised Architectural Storage Solutions provider utilising the power of steel – the most-recycled material on earth and leaving a positive and long lasting environmental impact.

Our success has been underpinned by our commitment to continuous improvement through innovation and technology.”

– Mark Durrington & Peter Letton, Co Managing Directors
